Webinar Invitation

Topic: Build your dental career

Synopsis:

You have got the skills and you have got the training...but are you completely equipped to face the existing, fast moving dental world outside your dental school? Apart from the science of dentistry, one needs to understand the dynamics of an independent venture to have a successful career path.

The lecture will help you to identify skill sets required for building your dream practice, maintaining a motivated team and will also guide you through options for a successful career.

Learning objectives:

To identify what dentistry has to offer

To learn about human resource management
